

Dear Client:

I am using a portal system for sending your tax data to you. Please give this a try, it's best for me and you as it's protected and you have access to your returns to send the bank or others without having to wait for me to send.

**You can see if you have a portal by using the following Link:
(You might have to copy and paste)**

<https://tombakercpa.securefilepro.com>

**If you forgot your user name its your first and last name with no space between.
If you forgot your password it's pretty easy to reset, or contact me and I'll reset on my end and you can start over!**

You will get an email from me that shows as tom@tombakercpa.com. This is slightly different from the emails you usually get from me. Just follow the instructions.

If you don't have a portal or do not know, let me know and I'll send you a set up email.

**Thanks for your help!
Tom Baker CPA**

P.S. – if you are trying to do this on your phone you need to download the SecureFilePro app for your phone.
